

X-TENDA COAT™

Coating Systems

Coating Solutions

X-Tenda Coat provides a cost-effective, fluid applied roofing restoration system that can extend the life of an existing roof. Carlisle offers two lines of high-performance roof coatings that can increase a rooftop's reflectivity and improve its performance, while offering minimal downtime to the building's operations.

REFLECTIVITY

Carlisle's highly reflective white X-Tenda Coat helps reflect solar energy and is designed to meet ENERGY STAR® and LEED® requirements.

FUNCTIONALITY

X-Tenda Coat helps protect a building's primary roofing system from the elements, enhancing the longevity and performance of virtually any rooftop.

AESTHETICS

X-Tenda Coat is available in a variety of colors that can transform the appearance of almost any roofing system.

ECONOMICAL

- » Extends the life of the roof system
- » Reduces labor and material costs
- » Causes minimal disruption/downtime for building occupants and operations
- » Does not count as an additional or third roof system for code purposes
- » Can avoid capital expenditures for a new roofing system

X-TENDA COAT PRODUCTS

Carlisle's coatings and accessories are all designed to provide superior performance over a variety of substrates for a quality, long-lasting roof system.

X-TENDA COAT™ CLASSIC

Acrylic Coating

A 100% acrylic, single-component, water-based, premium quality elastomeric coating.

- » Easy to apply with conventional or airless spray equipment, roller, or brush
- » Water-based and easy to clean up
- » Title 24 compliant
- » High solar reflectivity can contribute to energy savings
- » Restoration System and Material Warranties available
- » Available in: White, Light Gray, Dark Gray, and Tan
- » High Tensile and Quick Set formulations available

X-TENDA COAT™ XTRA

Silicone Coating

A single-component, moisture-cured, fluid applied low-VOC silicone coating.

- » Industry-leading resistance to dirt pick-up and biological growth
- » Title 24 compliant
- » ENERGY STAR qualified
- » NSF P151 Rated (white only)
- » Restoration System and Material Warranties available
- » Low-VOC compliant
- » Available in White, Light Gray, Dark Gray, Tan, Santa Fe Tan, and Terra Cotta
- » Excellent resistance to ponding water, UV exposure, and natural weathering

Before: Overview of existing 39-year-old Carlisle roofing system.

After: Completed restoration.

EXPERIENCE THE CARLISLE DIFFERENCE

WARRANTIES

Like all of Carlisle's dependable roofing products, X-Tenda Coat products are backed by industry-leading warranties. Depending on the thickness of the coating application, Carlisle offers 5- or 10-year Restoration Material Warranties or 5-, 10-, or 15-year Restoration Systems Warranties for X-Tenda Coat Classic and X-Tenda Coat XTRA systems. System Warranties are only available when coating is applied to a Carlisle roofing system. Please refer to Carlisle's Specifications and Details for complete warranty information.
