FleeceBACK® RapidLock (RL™) PVC Membrane

January 31, 2020

To: Carlisle SynTec Systems' Authorized Applicators

Carlisle SynTec Systems is pleased to add FleeceBACK RL PVC to the RapidLock (RL) product line. FleeceBACK RL PVC offers the performance characteristics of FleeceBACK PVC while providing a no-temperature-restriction, no VOC, no odor, adhesive-less attachment system.

RapidLock utilizes Velcro® Brand Securable Solutions to fully attach FleeceBACK membranes without adhesives. FleeceBACK RL PVC membrane is combined with InsulBase RL, SecurShield® RL, or SecurShield HD RL Polyiso insulations to create a revolutionary attachment method.

RapidLock systems offer a variety of features and benefits, including:

- No temperature restrictions, facilitating cold weather installations
- No VOCs or odor reduces risk when reroofing occupied spaces.
- Adhesive-free system saves time and labor
- Factory Mutual 1-90 approval rating
- Wind uplift ratings comparable to traditional fully adhered single-ply systems
- Excellent resistance to hail and punctures
- A variety of insulation and coverboard options are available

FleeceBACK RapidLock PVC Membrane				
Product Code	Description	Size	Stocking Location	
332373	White FleeceBACK RL PVC 115-mil	10' x 50'	4-6 weeks
