

# CARLISLE'S AUTHORIZED APPLICATORS MARKETING ANNOUNCEMENT

## ID-2010-02

**R-Tech® Fanfold Recover Board**  
**February 19, 2010**

TO: Carlisle Authorized Applicators

Carlisle is pleased to offer R-Tech Fanfold Recover Board as the most competitive solution for applications requiring a recover board. R-Tech is a high-performance, closed-cell expanded polystyrene (EPS) insulation with advanced polymeric facers that permit it to be used under various mechanically fastened single-ply roofing systems. R-Tech has excellent dimensional stability, compressive strength and water resistance.

Some of the noteworthy benefits of the R-Tech Fanfold Recover Board:

- Ideal for direct recovers with TPO, EPDM and PVC systems
- Less expensive than all other recover boards
- R-Tech can reduce installation costs by 50%
- Polymeric laminate facer permits usage with PVC with no slip sheets required.
- Lightweight and easy to handle versus other cover boards
- Metallic facer permits usage with Mechanically Fastened EPDM\*
- Resists moisture and reduces mold or mildew concerns
- Reduced fastening pattern increases installation speeds

The R-Tech Fanfold Recover Board can be used as a separator from an existing asphaltic system in reroof applications. For applications requiring this type of product, Carlisle will make R-Tech available from our membrane manufacturing plants in Carlisle, PA, Greenville, IL, Senatobia, MS and Tooele, UT. Carlisle will permit R-Tech to be included with shipments of membrane and accessories that originate from these plants.

The R-Tech product can be ordered through Carlisle rep/distributors in conjunction with membrane orders. Combination job site deliveries that include R-Tech are freight pre-paid so long as 24,000 lb. weight minimums are met and space is available. For jobsite deliveries, ½ pallets (7 bundles total) can be shipped.

Product Code	Product Name	Bundle Weight	Quantity
310902	½" R-Tech Fanfold Recover Board	12.2 lbs	200 SF

Please contact your Carlisle Manufacturer's Representative or Distributor for additional detail, questions or pricing.

Sincerely,

Mike DuCharme  
Director, Product Marketing
