

CARLISLE'S AUTHORIZED APPLICATORS MARKETING ANNOUNCEMENT

INS-2012-07
SecurShield™ HD Plus
February 15, 2012

To: Carlisle Authorized Applicators

Carlisle SynTec is pleased to announce the introduction of SecurShield HD Plus to its line of commercial insulation products. SecurShield HD Plus is a Factory Mutual-approved, ½"-thick, polyiso foam core panel engineered for use as a cover board in fully adhered systems requiring a 1-90 uplift rating. SecurShield HD Plus is the first and only polyiso cover board to achieve the FM 1-90 rating with eight fasteners per 4' x 8' board. Incorporating premium-performance coated glass facers, SecurShield HD Plus is lightweight, easy to cut and delivers an R-value of 2.5.

SecurShield HD Plus also provides these additional outstanding benefits:

- Lightweight and easy to cut
- FM 1-90 with 8 fasteners per 4' x 8' board
- Compatible with all Carlisle single-ply roofing systems
- R-Value = 2.5
- Improved resistance to high winds
- Durable 100 psi compressive strength
- FM SH-1 Severe Hail rating
- Highly resistant to mold
- Inherent moisture resistance

At only 13 lbs. per 4' x 8' board, SecurShield HD Plus is the ideal lightweight product for both new construction and re-roof applications that require a Factory Mutual 1-90 approved cover board.

Please contact your Carlisle Manufacturer's Representative or Distributor if you have any questions regarding the specification, uses or application of this new product.

Sincerely,

Edward R. Krusec
