

# CARLISLE'S AUTHORIZED APPLICATORS MARKETING ANNOUNCEMENT

**ID-2016-12**  
**Warranty Submittal Sheets**  
**August 24, 2016**

## **To: Carlisle SynTec Systems' Authorized Applicators**

Carlisle SynTec Systems is pleased to introduce Warranty Submittal Sheets. Available for a wide variety of Carlisle roofing systems, these interactive, one-page, time-saving checklists can be included in submittal packages in lieu of assembly letters.

Warranty Submittal Sheets illustrate which components must be included in the roofing assembly in order to qualify for a Carlisle warranty, including acceptable membrane thicknesses, cover boards, fasteners, fastening patterns, and adhesive coverage rates.

Carlisle's Warranty Submittal Sheets are accessible via the [Carlisle SynTec Systems website](#). On the homepage, hover over the "Documents" menu and select "Specifications". Click on "Warranty Submittal Sheets" in the left-hand menu, select the document that is applicable to your project, and download the PDF.

For added convenience, Carlisle's Warranty Submittal Sheets are interactive; when users click on the checkboxes next to the required system components, those components are automatically highlighted. The customized document can then be saved and included in the submittal package.

If you have any questions about Carlisle's Warranty Submittal Sheets, please contact the Project Review Department at 800-453-2554.

Sincerely,

Kenneth Gingerich  
Manager, Project Review and Design
