

Advantages of SecurEdge™ Perimeter Roof Edge Systems

IMPROVING PRODUCTIVITY

Snap-on design eliminates the stripping-in process typical in many other roof edge designs.

Prefabricated accessories ensure a proper fit and prevent the need for field fabrication.

Engineered cleats with pre-punched fastening holes ensure proper attachment to building substrate.

Available in continuous and segmented lengths, taking the guesswork out of fastener spacing.

SUPERIOR PERFORMANCE

ANSI/SPRI ES-1 tested to meet International Building Code requirements.

Factory Mutual (FM) approved.*

Premium-quality, heavy-gauge materials provide superior wind resistance.

Engineered to resist the inward pull of the roof due to expansion and contraction.

BACKED BY CARLISLE

Up to 30-year Golden Seal Total Roofing System Warranty.

Fully-transferrable 20-year, 110-mph Wind Warranty.

Fully-transferrable 30-year, 110-mph Wind Warranty.
