

# SecurEdge™ 4000 Fascia EC

## Overview

Carlisle's SecurEdge 4000 Fascia EC is a two-piece assembly that includes a continuous extruded cleat and a decorative fascia cover. Available in pre-painted Kynar 500®-coated .032", .040" and .050" formed aluminum and 24-gauge Galvalume steel, this product features an .080" extruded aluminum pre-punched cleat with fasteners spaced at 12" on center. SecurEdge 4000 Fascia EC is offered in standard 12' cleat and 10' fascia cover lengths; concealed splice plates and fasteners are included.

## Features and Benefits

- » Pre-punched continuous extruded cleat that allows for quick install and excellent wind resistance
- » Stocked in four sizes for quick delivery
- » ANSI-SPRI ES-1 tested and IBC compliant
- » Available in 31 standard Kynar colors
- » Mill finish aluminum and clear anodized finishes are available
- » 35-Year Transferrable Paint Warranty
- » Prefabricated miters and accessories are available

## Installation

For complete installation instructions, refer to Carlisle specifications and details or visit [www.carlisesyntec.com](http://www.carlisesyntec.com).

## Quality Assurance

Fascia is tested per ANSI/SPRI Test Method RE-2 for Fascia. Fascia is certified by Carlisle to design pressures as indicated in the current edition of SPRI's Wind Resistance Standard for Edge Systems Used with Low-Slope Roofing Systems. This product meets the International Building Code minimum requirement.

## Technical Services

Engineering and shop drawings, as well as long-form specifications and CAD details, are available from Carlisle. Product samples, detail sheets, color chips, and color charts are also available for submittal packages. For assistance with questions or submittals, contact Carlisle or your local manufacturer's representative.
