**SecurEdge™ 400/4000 Series – New Products and Updates
June 11, 2015**

To: Carlisle SynTec Systems' Authorized Applicators

Carlisle SynTec Systems is pleased to announce a number of updates to its SecurEdge™ 400/4000 Series of perimeter edge metal products. With six new, contractor-friendly edge metal profiles and several product enhancements, the re-designed SecurEdge 400/4000 Series provides excellent product performance while reducing labor and material costs. Please visit www.carlislesyntec.com to view the new SecurEdge 400/4000 Series brochure, product data sheets, print approvals, and installation guidelines.

The updated SecurEdge 400/4000 Series consists of the following edge metal products:

New Products	
<i>SecurEdge 4000 HP Spring Tite Coping</i>	<i>NEW PRODUCT</i>
<ul style="list-style-type: none"> • Features a patent-pending segmented “V-Cleat” that allows the 16-GA cleat to telescope a parapet wall up to 24” wide. 	
<i>SecurEdge 400 Spring Tite Coping</i>	<i>NEW PRODUCT - QUICK SHIP</i>
<ul style="list-style-type: none"> • Features the same design as SecurEdge 4000 HP Spring Tite Coping with an 18-GA cleat. • Excellent choice when a lesser wind rating or design pressure is needed. 	
<i>SecurEdge 4000 HP Fascia</i>	<i>NEW PRODUCT - QUICK SHIP</i>
<ul style="list-style-type: none"> • Allows installation with a heavier-gauge cleat without changing the profile design. • Design pressures attained with this profile are consistent with those attained by extruded cleat profiles. 	
<i>SecurEdge 4000 Fascia</i>	<i>NEW PRODUCT - QUICK SHIP</i>
<ul style="list-style-type: none"> • Similar in design to SecurEdge 4000 HP, with a 22-GA cleat. • Cost-effective option when higher design pressures are not required. 	
<i>SecurEdge 400 Snap Lock Gravel Stop</i>	<i>NEW PRODUCT - QUICK SHIP</i>
<ul style="list-style-type: none"> • New design offers an improved snap-on feature for simpler installation. 	
<i>SecurEdge 400 Spring Tite Gravel Stop</i>	<i>NEW PRODUCT</i>
<ul style="list-style-type: none"> • Similar in design to the SecurEdge 400 Snap Lock Gravel Stop, this product features a “spring stop” to withstand increased pressure loads.

Warranties

To meet specifications, a wind speed warranty will be associated with each profile. The two available wind speed warranties are:

- 20-year, 110-mph wind speed warranty
- 30-year, up to 210-mph wind speed warranty

All Kynar 500® edge metal profiles carry the Gold Standard 35-year, non-prorated paint warranty, which covers both material replacement and labor costs.

If you have any questions or concerns, please contact your local manufacturer's representative or distributor.

Sincerely,

Ken Laremore
Product Manager/Carlisle Metal Products
